

ALPUCH project solution

A small artisan workshop founded in Sedavi in 1963 specialized in the manufacture of classic furniture using joinery, carving and marquetry techniques, and played an important role in the production of high-quality furniture in the 1960s and 1970s.

Currently, with more than 50 years of experience in the manufacture of furniture, the company is dedicated to the manufacture of office furniture and personalized projects, both in classic and contemporary styles. This adaptation to the market shows a vision of the future and the company's ability to adapt.

Despite having evolved towards the manufacture of office furniture and custom projects, the artisan workshop continues to maintain its focus on craftsmanship and quality in the production of its furniture. The combination of tradition and modernity in the manufacture of furniture guarantees the durability, functionality and aesthetics of its products.

MADE IN SPAIN

About us-Sobre nosotros

Our company specializes in the manufacture of high quality furniture, offering a custom design solution to meet the specific needs of each client. With a wide range of materials and high-quality finishes, we can create furniture that perfectly fits the style and atmosphere of the space where it is going to be located.

In our manufacturing process, we focus on attention to detail, quality, and customer satisfaction. Our skilled woodworking and decorating artisans work with passion and dedication to create furniture that is durable, aesthetically appealing, and functional.

We are proud to be a responsible company and committed to the environment, using wood from sustainable sources and handling waste properly.

Executive office furniture manufacturing involves the production of high-quality, sophisticatedly designed furniture for an executive work environment. This furniture is used in management offices, meeting rooms, conference rooms and other high-hierarchy work spaces.

Executive office furniture is usually made of high-quality materials, such as solid wood, leather, stainless steel, and other durable materials. These pieces of furniture are characterized by their elegant design and attention to detail, making them a popular choice for executive offices and professional settings.

Manufacture of executive office furniture must meet specific customer requirements, which may include custom measurements, finishes, and specific design details. It is important that furniture meets quality and safety standards, and that it is manufactured in a sustainable and responsible manner.

In short, executive office furniture manufacturing is a specialty within the office furniture industry, focusing on the production of high-quality, sophisticatedly designed furniture for an executive work environment. These pieces of furniture are characterized by their elegant design and attention to detail, and are manufactured to meet specific customer requirements.

Corporate board rooms

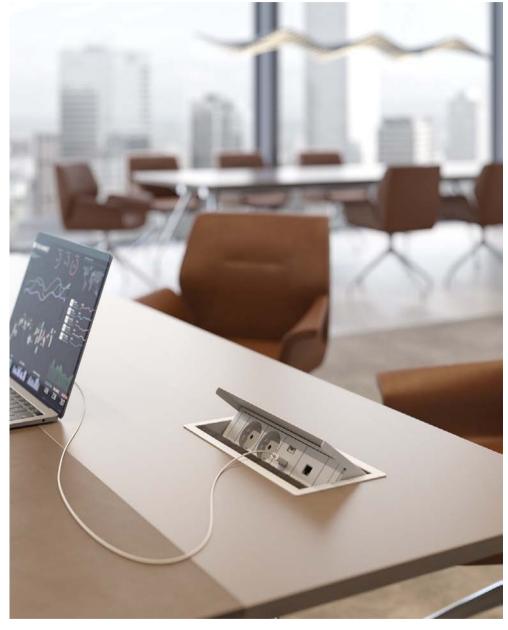

Meeting table custom manufacturing refers to the process of designing and building a table that is perfectly tailored to a client's specific needs. This involves working with the client to understand their requirements in terms of size, shape, style, materials and finishes, and then using that information to create a table that is exactly tailored to their specifications. Custom boardroom tables are commonly used in office or meeting spaces where large surfaces are needed to accommodate multiple people, such as boardrooms or conference rooms. Custom manufacturing allows the customer to obtain a table that meets their specific needs and requirements, and that fits perfectly into their space.

Corporate board rooms

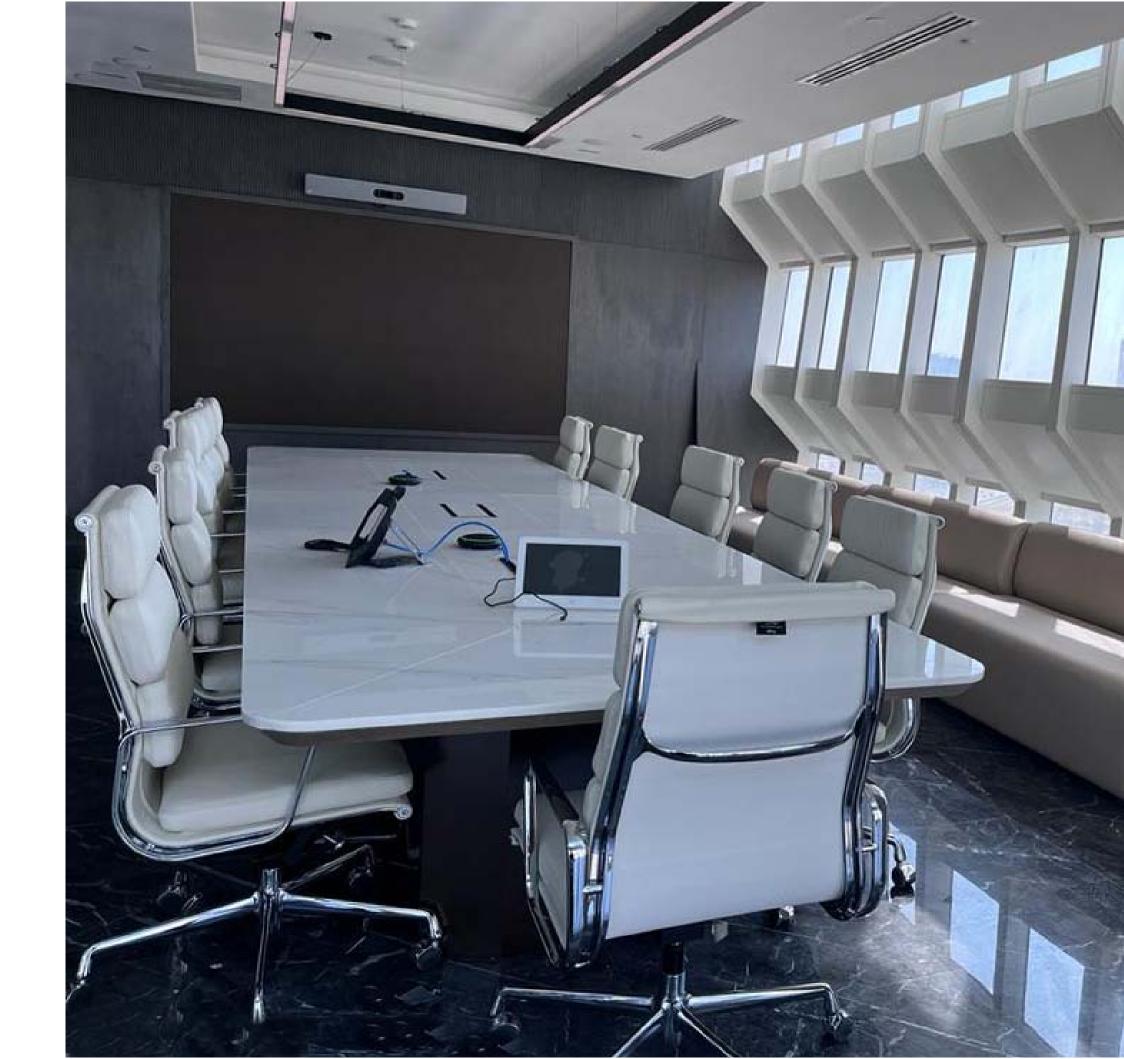

The manufacture of meeting tables with different materials, finishes and designs, such as marble, can be an excellent option for those looking for an elegant and sophisticated table for their work space.

Marble is a natural and durable material that is commonly used in the manufacture of high-quality furniture and sophisticated design. Marble boardroom tables can be a popular choice for conference rooms and other high-end workspaces.

The manufacture of marble boardroom tables must consider the specific needs of the client, including the size, shape and design of the table. In addition, it is important to select the right type of marble for the project, since there are different types and finishes of marble that can vary in appearance and durability.

It is important that the manufacture of marble meeting tables is carried out in a sustainable and responsible manner, using high-quality materials and managing waste properly. In addition, quality and safety standards must be met to ensure customer satisfaction.

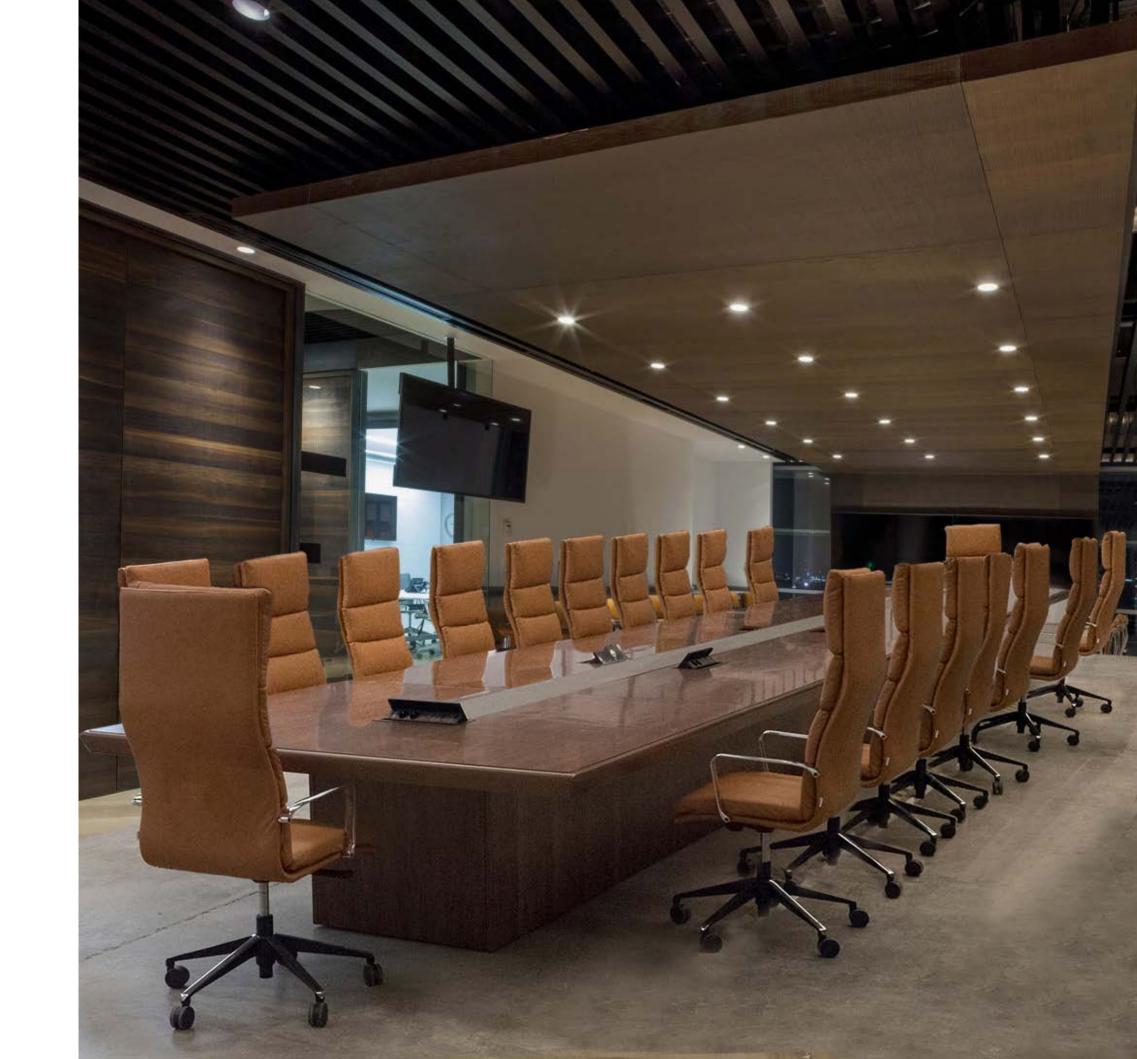

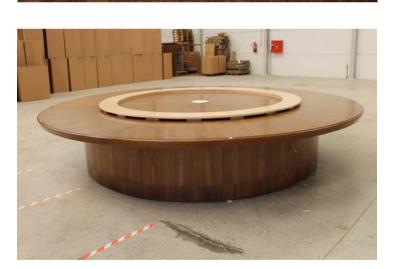

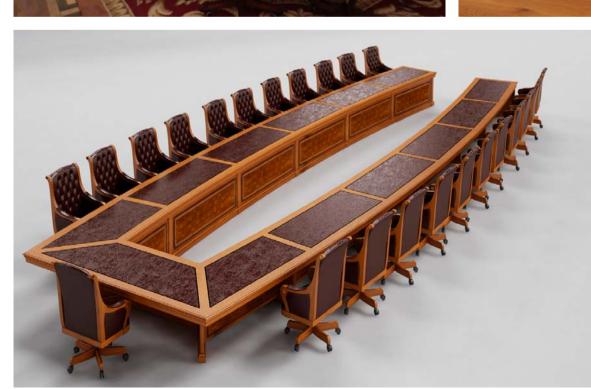

LUXURY MEETING

carpentry and decoration Creative Design

The manufacture of classic boardroom tables with wood carvings and gold details must consider the specific needs of the client, including the size, shape and design of the table. In addition, it is important to select high-quality materials

Attention to detail is paramount in the manufacture of these high-quality tables, with carefully designed and crafted carvings and gold accents. Expert artisans in cal pentry and decoration are responsible for creating these tables, ensuring that every detail is adjusted to the preferences and needs of the client.
